

Access to Wetlands

Adjacent to the Ajman Sewerage Biorefinery

RISKS AND OBLIGATIONS

Whilst walking through the areas around Wetlands 2, 3a and 3b (collectively the "Wetlands") adjacent to the Ajman Sewerage Biorefinery in Al Jurf Industrial Area, Ajman, you may be exposed to certain perils including, but not by way of limitation:

- Natural perils, such as reptiles (snakes for example), insects (scorpions for example), feral dogs, unstable embankments, fire and lightning.
- Man-made perils, such as standing water, sudden inundation of ponds and wetlands, non-sanitary conditions, infections, flammable or noxious gases and/or noxious substances in the vicinity of the Buffer Tank, Pond 4 and Wetland 6.

Therefore, whilst in the Wetlands, you shall comply with the following:

1. If you suffer from any medical conditions or physical limitations that might preclude your ability to enter the Wetlands safely, inform the Operator (Moalajah FZC) before entering the Wetlands and follow the Operator's instructions.
2. Obey all instructions issues by the Operator regarding health, safety and other matters.
3. Dress appropriately and wear closed shoes and socks.
4. Confine your movements to the Wetlands indicated on the map reproduced overleaf and do not enter the prohibited area indicated on the map.
5. Enter and exit the Wetlands on foot only via the natural pathway between the Plant and the Buffer Tank as indicated on the map, and use the natural pathways to walk around and between the Wetlands.
6. Do not enter or remain in the Wetlands during thunderstorms.
7. Do not enter the Wetlands during the hours of darkness, or remain in the Wetlands after sunset.
8. Do not under any circumstances enter Pond 4 and Wetland 6, as these can contain liquid or semi-dried sludge with a dry sandy surface that may appear safe to walk on but will not bear any load.
9. Respect the wildlife and do not take any actions that may scare or harm it.
10. Do not practice any unauthorised activities, particularly hunting or fishing.
11. Do not use a boat or any raft unless specifically authorized to do so by the Operator's Safety Officer.
12. Do not touch, drink or enter the standing water in the Wetlands.
13. Do not cook, eat, smoke or produce sparks or flames by any means.
14. Always wash your hands thoroughly after leaving the Wetlands before doing any other activities, particularly eating and drinking.
